

Subject: Paint Creek Valley

Hello everyone,

I wanted to let each of you know that this week the Paint Creek Valley (Nelson) property adjacent to Yellow River State Forest was transferred to the Iowa Department of Natural Resources! We appreciate your partnership and support in protecting this 368 acre property with 2.1 miles of Paint Creek, and making it available for public recreation. Please share this good news with your membership.

I look forward to working together in the future on other conservation projects in the Bluffland region of Northeast Iowa!

Most sincerely,
Brian
